102.5.1

It shall cover work on building, heavy highway, and engineering construction, including the construction of, in whole or in part or in improvement or modifications thereof, including any structure or operations which are incidental thereto, the assembly, operation, maintenance and repair of all equipment, vehicles, and other facilities, including helicopters, used in connection with the performance of the aforementioned work and services and including without limitation, the following types or classes of work.

102.5.2

Cellular cement mason, chipping, patching, grinding, setting all concrete forms and perimeter forms, including catch basin structures and drain inlets, curb forms and planks, setting of lines, stakes and grades, setting screeds, which includes screedpins; cutting, scoring and sawing new concrete, plugging, filling Shee-Bolt holes; dry packing concrete and EMBECO; tending material hose on slabs, floors and decks; tending mixer truck-chute on slabs, floors and decks; bush hammering; patching and sacking, rodding, tamping, bid well and similar type rodding machines, bull floating.

New innovative materials, techniques, compounds, equipment, and/or processes which require the skills of a Cement Mason Journeyman, or which supplement or supplant the existing work of the Cement Mason Journeyman, shall remain and continue to be the recognized work of the Cement Mason Journeyman.

102.5.3

Street and highway work, grading and paving, excavation of earth and rock, grade separations, elevated highways, viaducts, bridges, abutments, retaining walls, subways, airport grading, surfacing and drainage, electric transmission line and conduit projects, water supply, water development, reclamation, irrigation, draining and flood control projects, water mains, pipe lines, sanitation and sewer projects, dams, aqueducts, canals, reservoirs, intakes, channels, levees, dikes, revetments, quarrying of breakwater or riprap stone, foundations, pile driving, piers, locks, river and harbor projects, breakwaters, jetties, dredging, tunnels, soil testing, and building inspection.

102.5.4

The construction, erection, alteration, repair, modification, demolition, addition or improvement, in whole or in part, of any building structure, including oil or gas refineries and incidental structures, solar energy installations and appurtenances thereto, also including any grading excavation, or similar operations which are incidental thereto, or the installation, operation, maintenance and repair of equipment and other facilities used in connection with the performance of such building construction except where such structures are an incidental or supplemental part of highway and engineering construction, as defined in this Article.
